Dear parents/carers of GCSE Science students,

Re: GCSE Science Revision Resources

GCSE Science can seem daunting for students and parents due to the amount of content that is covered during the course. To support students, we are offering the chance to purchase GCSE Revision Guides and GCSE Workbooks for Science

Revision Guides – a concise explanation of content covered for the whole course.

Workbooks – a booklet of GCSE style questions which students can use independently to support and check their understanding with answers.

If purchased through the Science department, we can offer an additional discount to the recommended retail price. However, the resources will not arrive until shortly before the Christmas break, so if you would like to use them earlier, you will need to purchase elsewhere.

We have decided to use CGP Books as they currently give the best value for money. *(Details for all of these books, including ISBNs will be shared via Parent Portal).*

On the reverse of this letter, you will find two sections – Separate Science and Combined Trilogy. Please take care when selecting your purchases on ParentPay as prices and resources available will differ.

If you would like to purchase anything overleaf, please order via **ParentPay** by **Friday 3rd December**.

For any further information regarding these books please don't hesitate to contact me at office@solihull.tgacademy.org.uk

Yours faithfully,

Mr Phillips
Curriculum Leader of Science
