

LEARNING JOURNEY

Year 10 AUT: DEVELOPMENT

INTENT: Early life experiences shape who we become. You will develop your understanding of the fundamental brain structures needed for life, key theories formed by Piaget as well as contemporary theories of education and how we best learn. This will give you a wider understanding of the education that they receive as well as techniques which could help to improve your attitude to their own learning including the importance of growth mindset and praise.

Key Terms

Expected terms: brain stem, thalamus, nurture, genes, Piaget, assimilation

Tudor Habits

You will continue to work critical thinking skills surrounding being open to failure and feedback as you learn about Dweck's growth mindset and Piaget's changes to education. This in turn will help you reflect on your own motivation & self-regulation strategies.
