

# LEARNING SPANISH

## JOURNEY

Year 8 Autumn Term 2

### Mis vacaciones del pasado, del presente y del futuro

In Autumn 1, you covered the past preterite tense in the 1<sup>st</sup> and 3<sup>rd</sup> person in order to describe past holidays across different Hispanic holiday destinations. In Autumn 2, you will be challenged to produce language across three different tenses – a necessary skill for the GCSE written exam. You will practise writing in the present, past and future in order to compare and contrast past, present and future holidays, from describing holiday homes and explaining what you can do on holiday to reflecting on what you did last year on holiday. In addition, you will be equipped with real life scenario structures to help you to navigate your way around a town in a Hispanic destination by learning how to give and understand directions.

**TUDOR HABITS:** You will be open to feedback and failure in order to fast track your progress when addressing misconceptions across the three tenses: past, present and future.

**VOCABULARY:** se puede..+ infinitive  
 más que / menos que / tan ... como  
 gira / dobla / a la derecha / a la izquierda
