

LEARNING JOURNEY

German

Die Ferien (Holidays)

Year 11 Autumn Term 1

In Year 8 you covered the topic of holidays, so you will already have an understanding of the key vocabulary and grammar for this unit of work. This will serve as an excellent foundation to recap and further develop your use of the three main tenses, opinion phrases and a range of connectives. Additionally, you will extend your knowledge of different past tenses, to include the imperfect and perhaps even conditional perfect tenses, which will increase the level of complexity of your work. This unit of work will also incorporate transactional situations e.g. booking a hotel room, discussing problems on holiday, which not only serves as good revision of metacognitive skills for your speaking exams, but also, more importantly, has a practical real-world application.

Learning about popular German holiday destinations, such as Sylt.

TUDOR HABITS: This topic allows you to explore lots of aspects of grammar e.g. tenses and connectives that have been covered lower down the school. You will need to be failure and feedback hungry to identify which of these you need to perfect ahead of your trial exams.

VOCABULARY:

Conditional perfect tense

Der Urlaub, reisen, verbringen
