1970-1979: Conservative and Labour governments:

We will carry on chronologically from year 12, with making our way through the premierships of Heath, Wilson's second ministry and Callaghan. The 1970s saw huge turmoil and strife economically and politically; so we will explore how each prime minister attempted to ease tensions. This period will see Britain look more familiar to us in some ways, particularly as Britain moves from an imperial power to an equal in the European community.
