

# LEARNING JOURNEY

## Biology

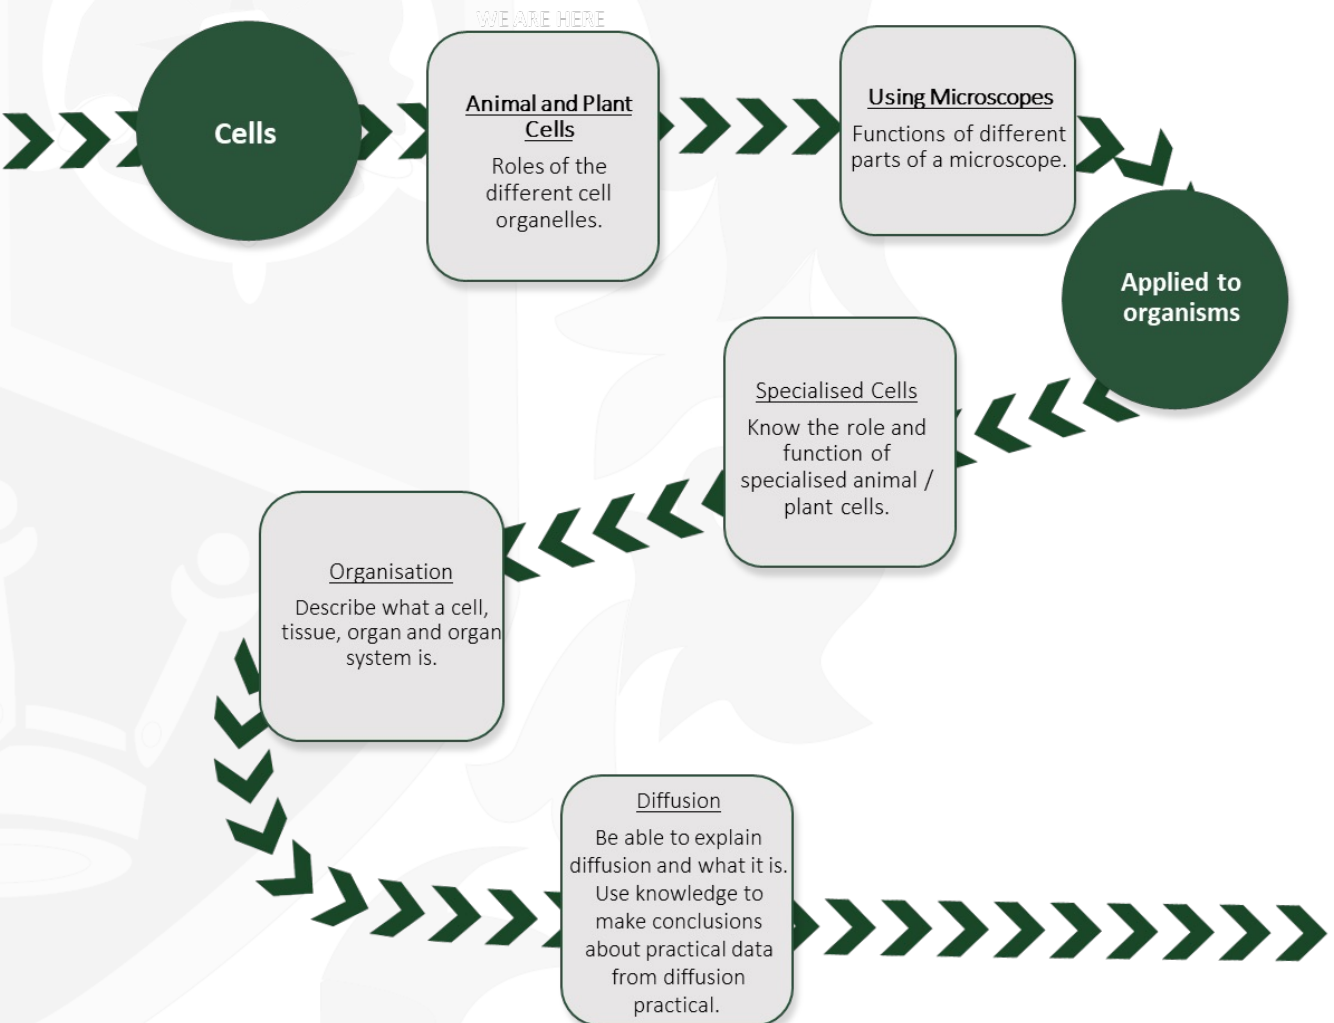

### What are we made of

Year 7 Spring Half Term 1

Biology is the study of living organisms and their environment.

In this second module you build on previous learning about what life is apply it to the building blocks of life.. Cells..

This will increase your understanding of the role of cells in organisms and learn skills which allow use to observe them.

#### TUDOR HABITS

You will develop the Tudor Habit of resilience as lots of new words are introduced which might be difficult to spell or to define.

#### VOCABULARY:

Cell membrane  
Cell wall  
Cytoplasm  
Ribosome  
Chloroplast

Mitochondria  
Vacuole  
Nucleus  
Objective lens  
Microscope  
diffusion
