

LEARNING JOURNEY

Chemistry

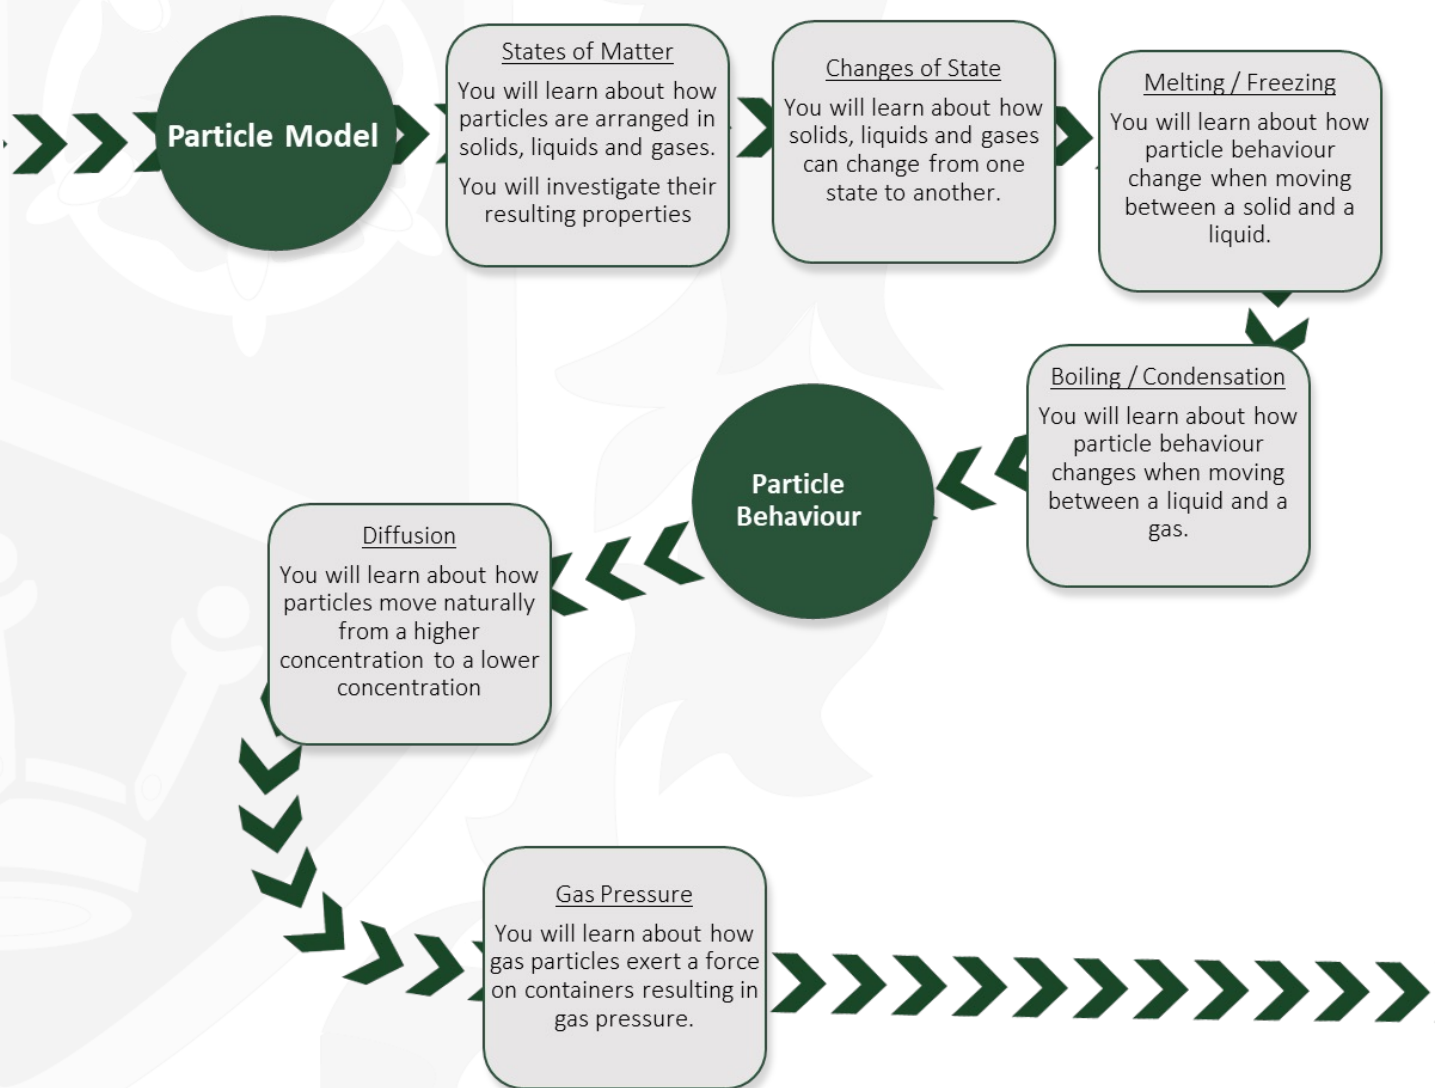

Particles

Year 7 Autumn Half Term 1

Chemistry is the study of how reactions work.

To understand Chemistry you need to understand the behaviour of particles. This is a theme that will be constantly referred to in future modules.

All Matter is made up of particles and how they behave on a microscopic level affects all materials.

TUDOR HABITS: You will develop the Tudor Habit of Positive Self-Regulation as you learn through practical discovery.

VOCABULARY:

Melting Point
Evaporation
Diffusion
Pressure

Freezing
Condensation
Properties
Kinetic
