

LEARNING JOURNEY Chemistry

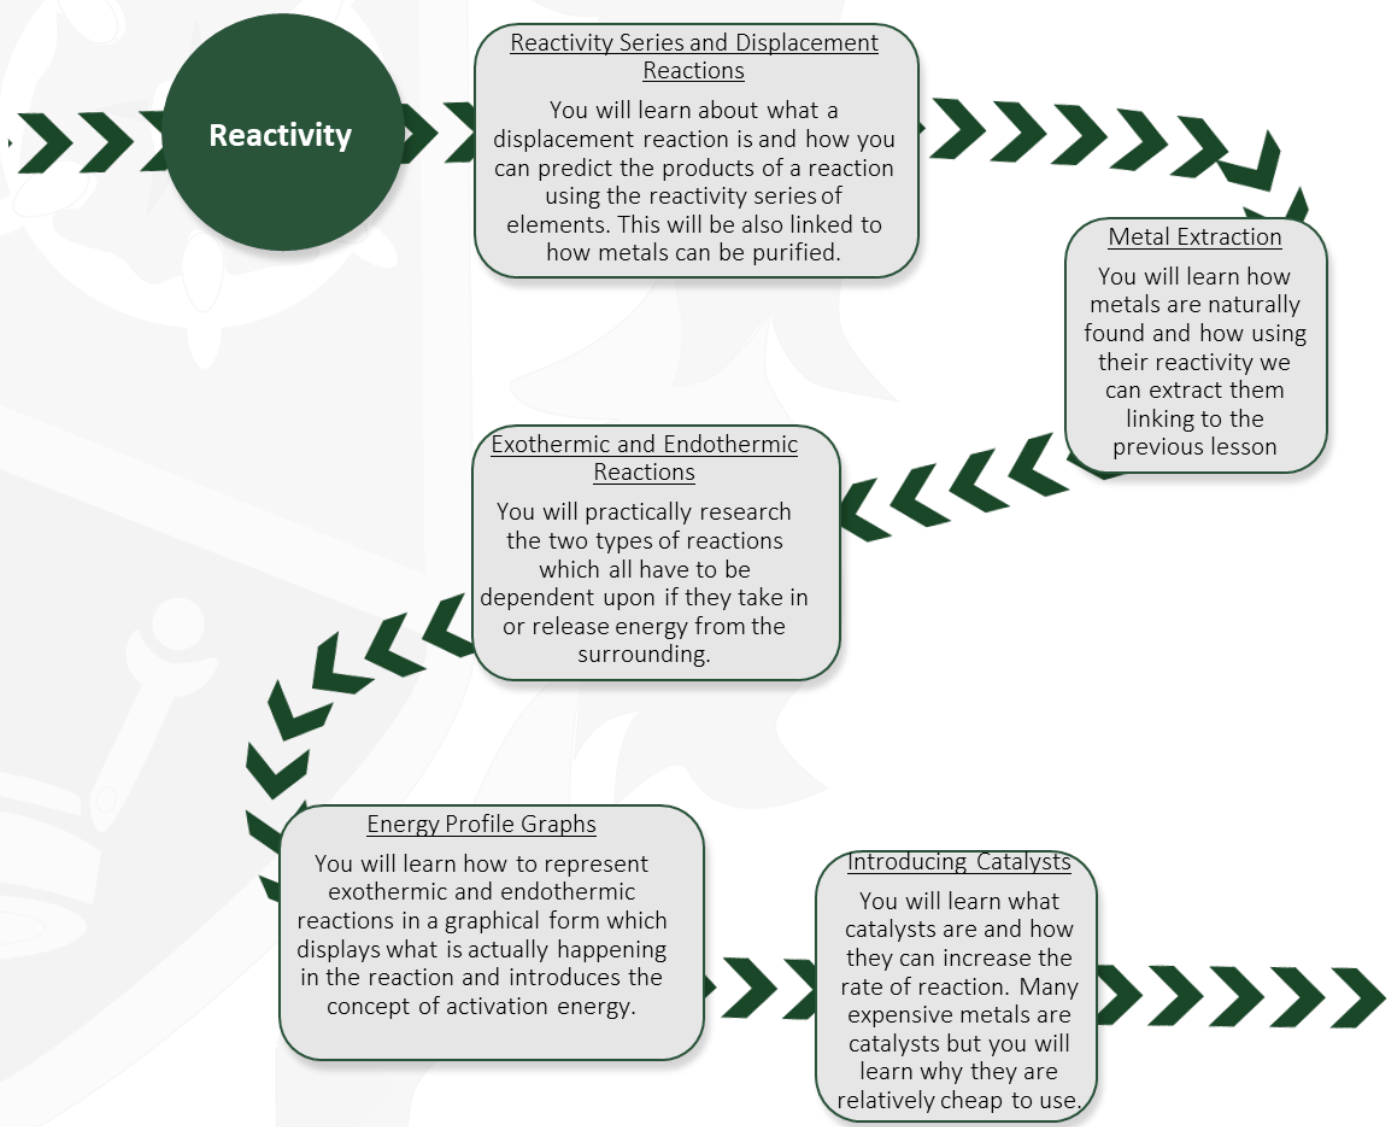

Further Chemical Reactions

Year 9 Autumn Half Term 1

This module continues your learning journey from previous learning in the Chemistry module from Year 8 where you studied Simple Chemical Reactions.

Building your understanding toward a GCSE standard you will learn about how reactivity can allow you to predict the products of displacement and how energy movement makes all reactions either exothermic or endothermic.

TUDOR HABITS: You will develop the Tudor Habit of responsibility as we consider the responsibility of humans to conserve and protect the natural world.

VOCABULARY:

Displacement
Metal Ore
Activation Energy

Extraction
Reaction
