

LEARNING JOURNEY

Child Development

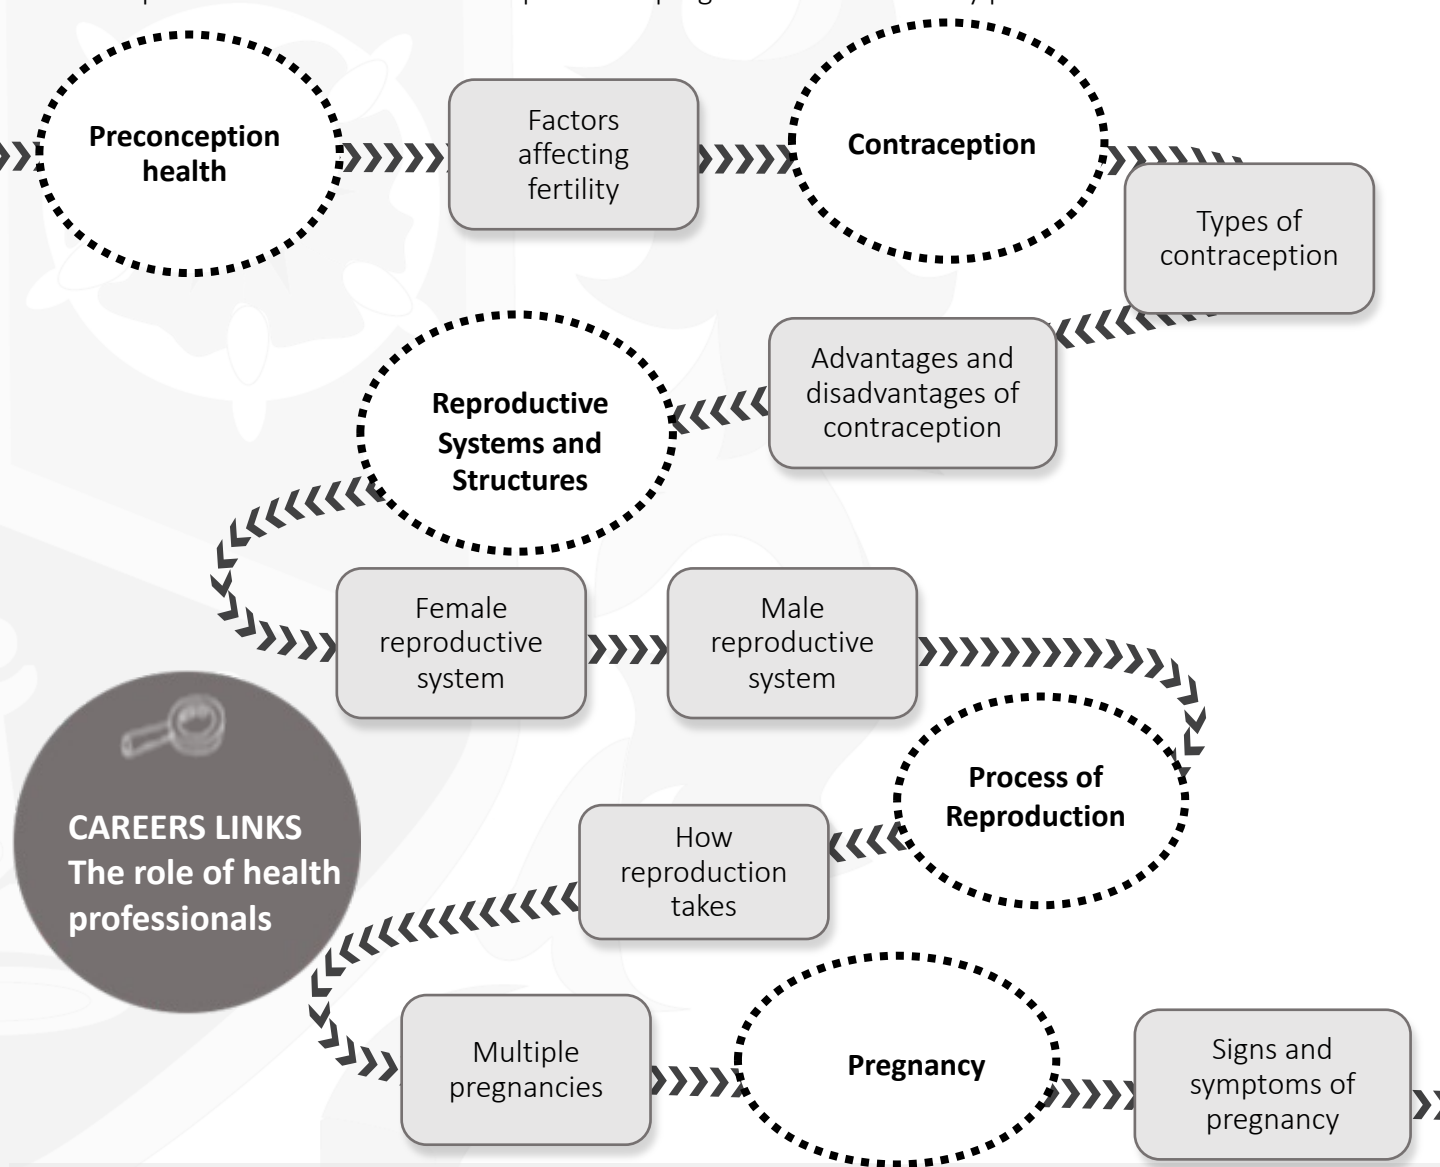

R057: Health and well-being for child development

Topic Area 1: Pre-conception health and reproduction

Year 10 Summer 1

In this topic you will develop an understanding of the range of factors parents should consider before having a child and the effect of these factors on fertility. You will also be able to explain the process of reproduction, being able to explain the different male and female structures involved in this process. You will be able to explain how pregnancies can be safely prevented.

TUDOR HABITS AND VALUES: You will be developing your meta cognition skills in this topic. By applying existing knowledge from science to new learning and developing strategies for how you learn.

VOCABULARY:

Preconception, fertility, contraception, reproduction.
