

LEARNING JOURNEY

Child Development

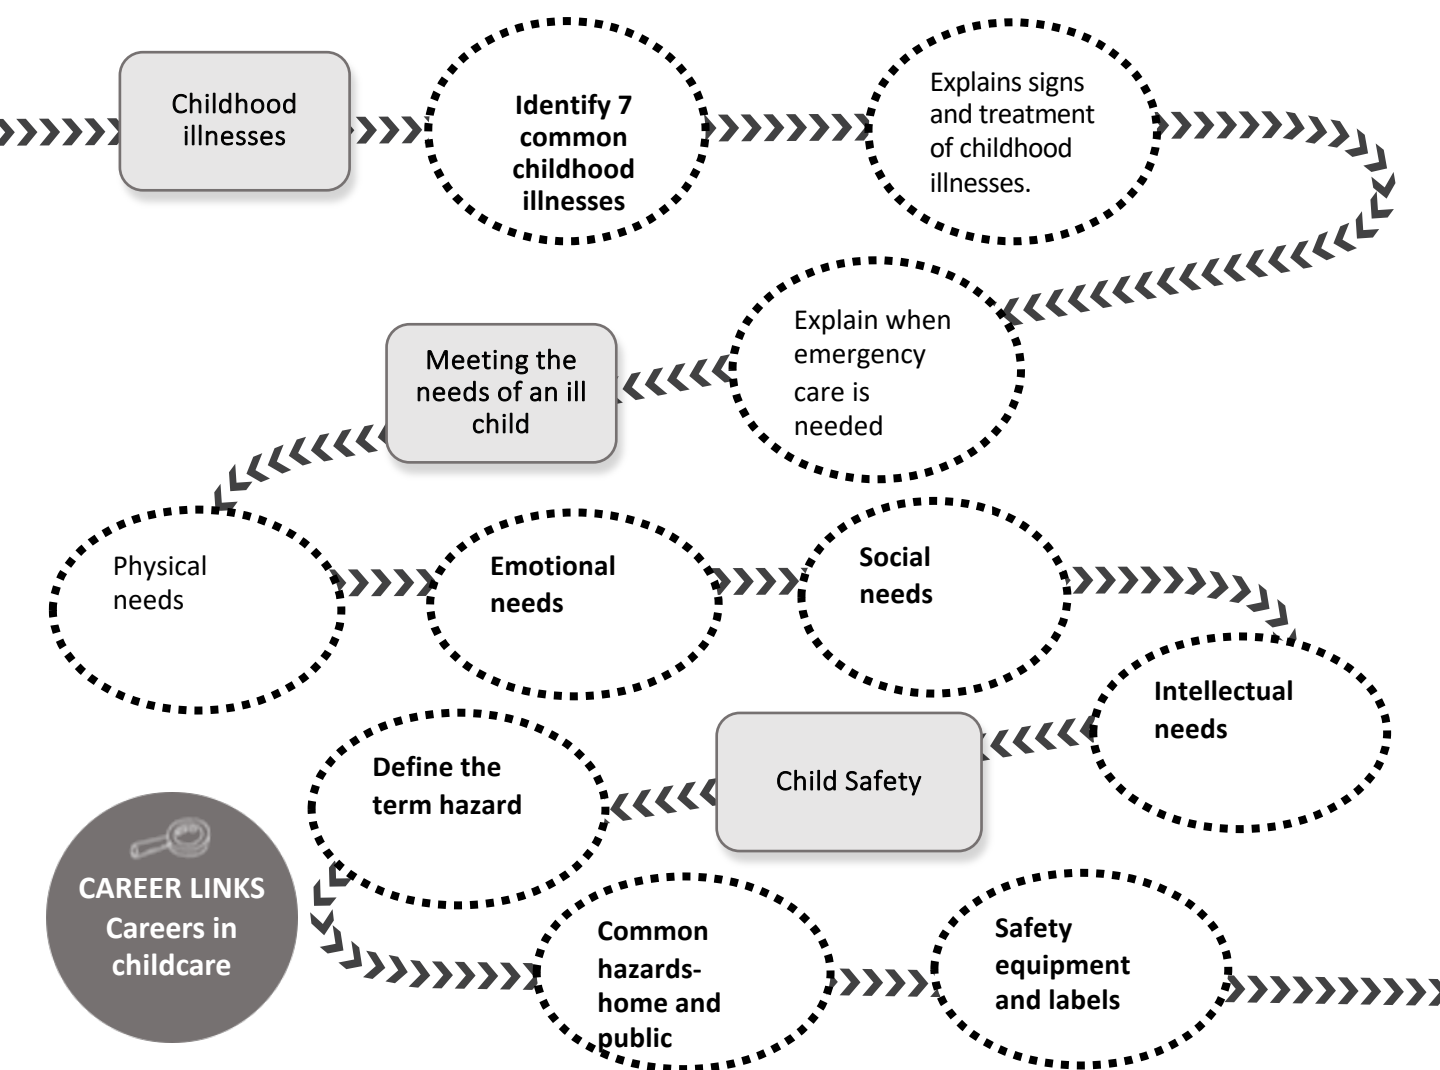

R057: Health and well-being for child development

Topic Area 4: Childhood illnesses and a child safe environment

Year 10 AUTUMN 1

In this topic you will develop your understanding of common childhood illnesses and safety considerations that apply to young children. This unit will link to your coursework unit which involves creating a safe environment.

TUDOR HABITS AND VALUES: You will develop your skills of application. You will also work on the habits of empathy and responsibility by applying these to the needs of children and considering how you can be empathetic to others.

VOCABULARY:

Emotional need, intellectual need, hazard, risk.
