

LEARNING JOURNEY GERMAN

Ein gesunder Lebensstil (a healthy lifestyle)

Year 9 Autumn Term 2

Having spent last term consolidating and recapping the core structures that were covered in Year 7 and Year 8, within this unit of work we will begin to add greater complexity to your linguistic repertoire. Although we will continue to practise expressing preferences, giving justifications and the three main tenses, we will also begin to explore infinitive constructions and clauses using *seit*. These additional structures will support you not only in understanding and accessing more challenging content, but enable you to write and speak in greater detail and with a higher level of sophistication. This is essential in allowing you to engage with a wider range of linguistic stimuli and a broader variety of topics.

TUDOR HABITS: In this unit of work you will be reflective upon your own health and lifestyle choices, and will be precise and systematic when constructing a range of new grammar structures in your work.

VOCABULARY:
infinitive construction, modal verb
man muss, seit, um...zu
