

LEARNING

JOURNEY

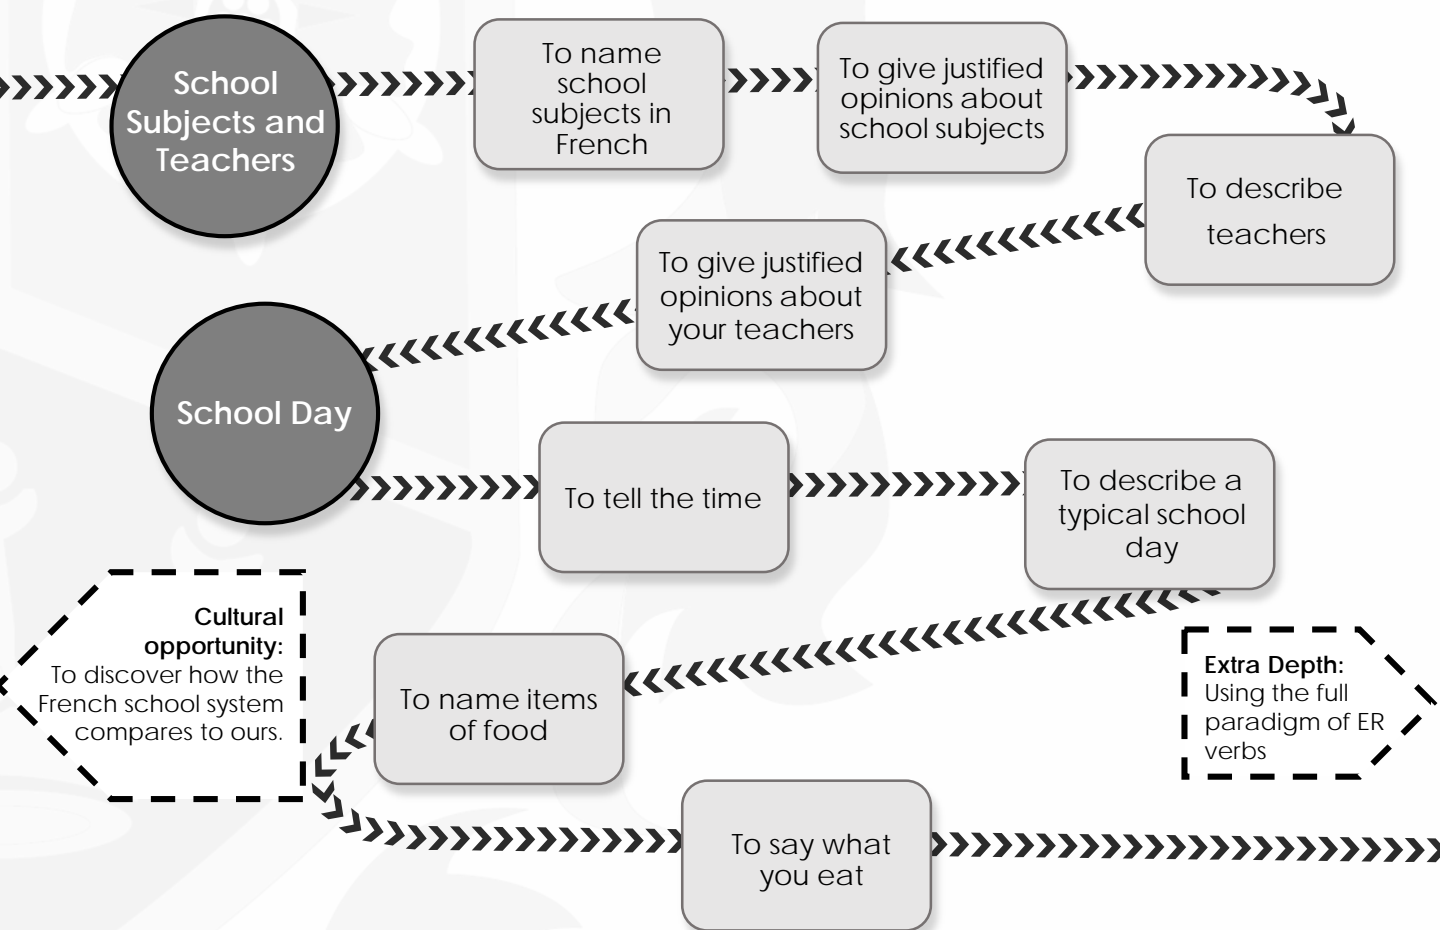

FRANÇAIS

Year 7: Le collège (School)

Spring Term 1

In primary school you may have acquired some basic French knowledge of the topic of school. The current topic will allow you to describe your school life in French, in particular school subjects and school day. In order to talk about your school day, you will learn how to tell the time in French and by doing this you will revise numbers that you learnt in Autumn Term 1. In Autumn term 2 you were introduced to the opinion verbs and some adjectives. You will use and extend this knowledge when expressing opinions with justifications about subjects and teachers. In this topic you will also develop your understanding of grammar, learning how to conjugate verbs that end in ER in the present tense. When describing your school day, you will also mention what you eat during the day, so you will learn some vocabulary of food in French.

TUDOR HABITS: As we enter our third half-term you can now begin to be **reflective** and **analytical** with your learning. Try to spot patterns and engage with previously learnt language to link ideas together. Always be **open minded** to differences from our own cultures.

TIER 1 FRENCH VOCABULARY:

J'aime (I like), Heure (time)

TIER 3 GRAMMATICAL TERMINOLOGY

Regular / irregular verb, To conjugate, Partitive article
