

LEARNING

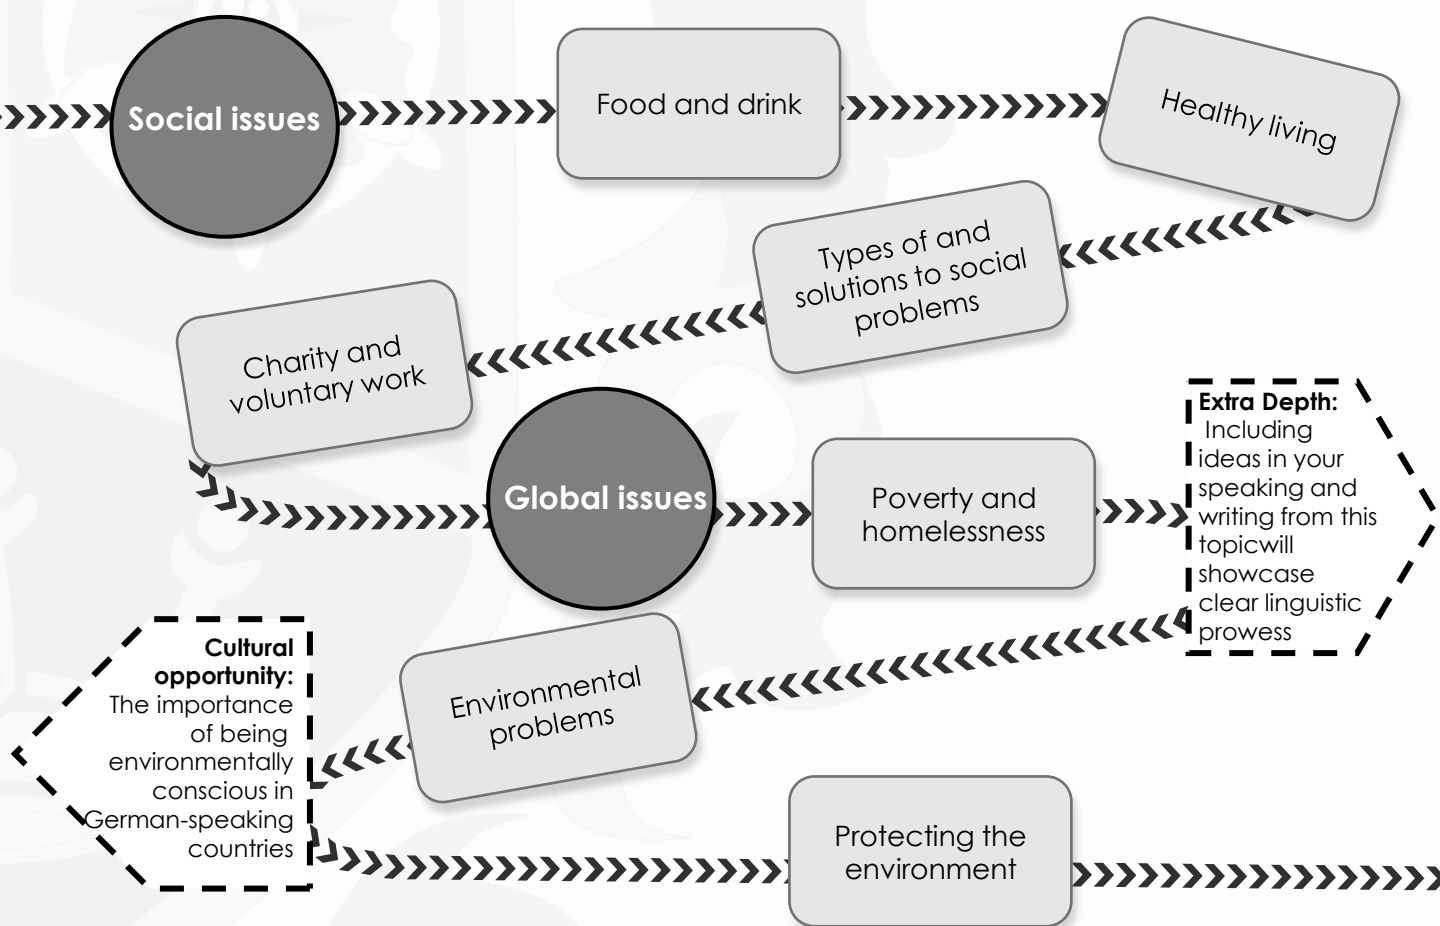

JOURNEY DEUTSCH

Year 11: Gesellschaftliche und globale Fragen (social and global issues)

Spring term

In Year 9 you covered the topic of **healthy living** where you studied vocabulary to describe **your lifestyle, illnesses and what to do to stay fit**. In Year 7 and Year 8 you started learning the topic of town where you were introduced to places in town and activities you can do there, and in Year 10 you covered the topic of town and local area, where you started to discuss the **issues in town**, in particular the ones linked to **environment**. You can now develop this by **revising the vocabulary** linked to home, town, environment, healthy living and also **deepening your knowledge** when **expressing and justifying opinions on the social and global issues like poverty, homelessness, environmental problems and their possible solutions**. This topic is a good opportunity for you to deepen your knowledge of some more complex aspects of grammar such as modal verbs, the dative case with in and the conditional tense.

TUDOR HABITS:

As we discuss problems that are present in today's society you need to **be reflective**, considering those suffering the consequences of the issues discussed and how you could support solutions to the issues raised.

TIER 1 GERMAN VOCABULARY:

- freiwillig (voluntary)
- schützen (to protect)
- obdachlos (homeless)
- die Umwelt (the environment)
- umweltfreundlich (environmentally friendly)
