

LEARNING JOURNEY

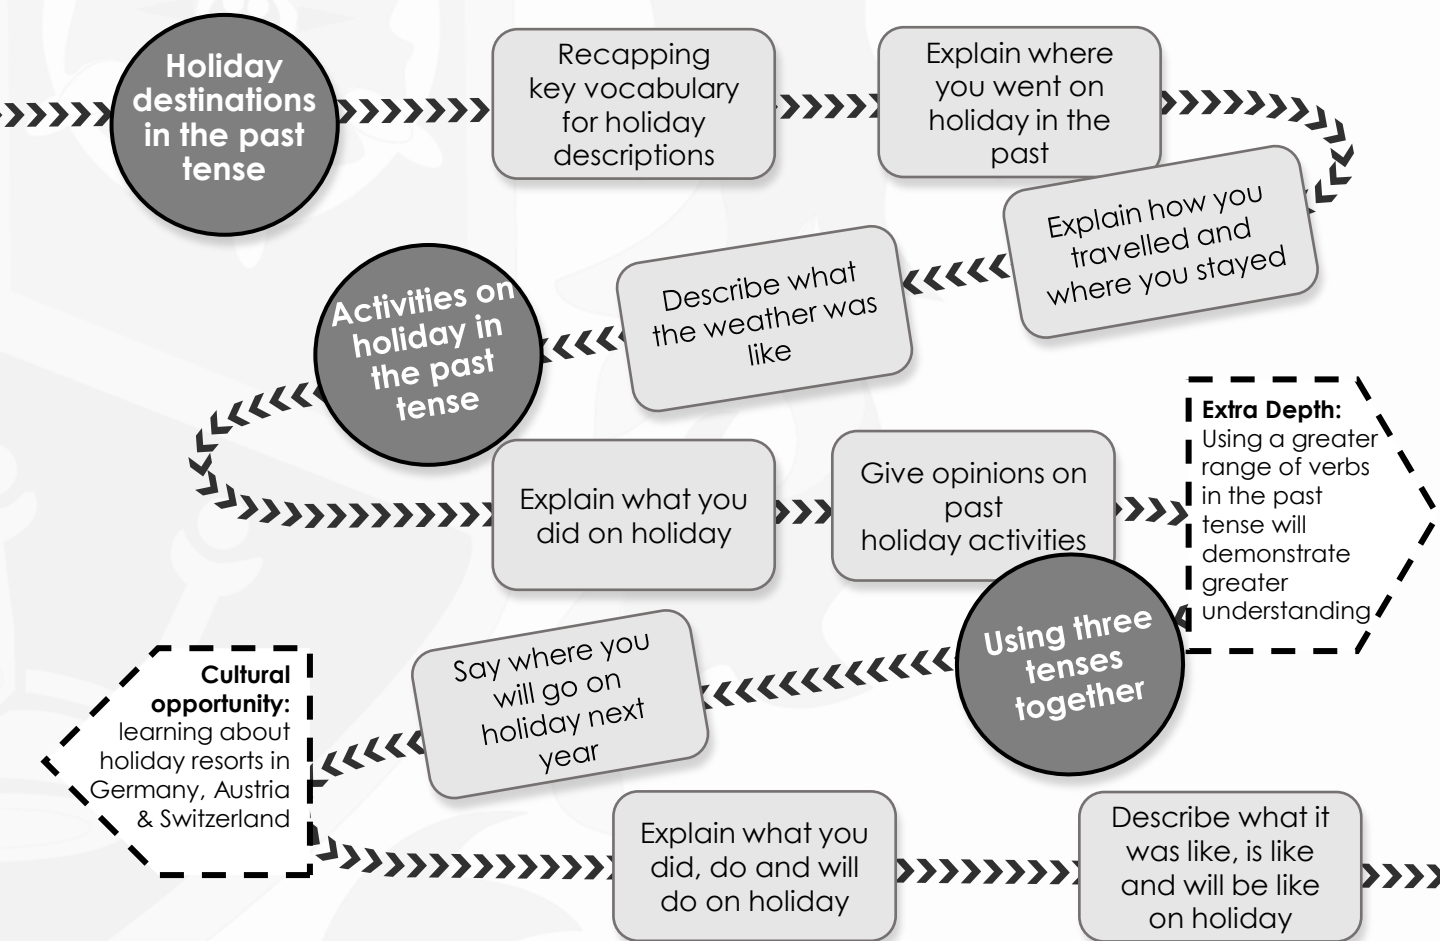

DEUTSCH

Year 8: Die Ferien (Holidays)

Spring term 1

In Autumn 2 we began the **topic of holidays** and learnt a range of vocabulary and sentence structures needed to discuss where we go on holiday, the weather and holiday activities. Now we will move on to talking about **where we went on holiday and describing what we did on a past holiday**. This will involve learning the **past tense** - specifically how to form the **perfect tense** and some **key verbs in the imperfect tense**, which are frequently used in spoken and written German. This will be revisited again and again in future topics, such as in the media and music topics in Spring 2 and Summer 1, **so it is important to understand the basics** now with a familiar topic and build on and consolidate this in our future learning

TUDOR HABITS:

This unit of work requires you to **be** both **resilient** and **reflective** as we reuse the previously learnt vocabulary from Autumn 2 and apply it to a new context (the past tense), before eventually using all three main tenses together.

TIER 1 GERMAN VOCABULARY:

bleiben (to stay), der Urlaub (holiday)

TIER 3 GRAMMATICAL TERMINOLOGY:

Perfect tense, past participle, auxiliary verb
