

# LEARNING JOURNEY ES

## Digital Ethics

Year 11 Spring Term

This unit will you will begin to examine the moral and ethical issues that have arisen from the increasing use of technology, particularly online communications. We will look at the way that our moral obligations to both ourselves and others translate from real life to online. We will look at the responsibilities that large companies / social media platforms have to keep their users data safe and to ensure they are protected as well as the responsibilities of the users of these sites. We will also look at the issues of fake news and the ways that we can learn to differentiate between fake news and genuine news.

**TUDOR HABITS AND VALUES:** You will be working on your understanding of responsibility and integrity in this into as you will be examining what responsibilities we have to each other and ourselves

**VOCABULARY:** Fake News, Privacy, Algorithm, Digital Footprint
