## Citizenship

### Active Citizenship – Making a Difference

Year 8 - Summer Term 1 & 2

This term our focus will be on practical active citizenship. We will consider different methods of protest and consider the arguments around whether it is ever acceptable to use violent methods to achieve our aims. We will use several case studies to enhance our understanding before looking at contemporary issues and planning a course of action we can take. The key skills you will be developing are curiosity, evaluation, working collaboratively, and displaying respect, tolerance and empathy.

Tudor Value - **RESPECT**– We must always show respect for the law and the beliefs of others even when we are trying to bring about change.

#### KEY TERMINOLOGY:

Humanity, Violence, Colour bar, Boycott

#### Discussion ideas :

Is violent protest ever acceptable?

Whose responsibility is it to change the world for the better?

**Vocabulary link**– You might come across the same key vocabulary in History, RE, RSHE and English. Look out for news stories about current issues and what people are doing to bring about change.
