

LEARNING JOURNEY FRENCH

La cybersociété (technology)

Year 12 Autumn Term 2

In Year 11 we covered the pros and cons of media, looking in particular at the potential health risks associated with the over-use of technology. You can now develop on this by transforming your discussions from a personal narrative, to a more analytical and evaluative exploration of contemporary francophone trends with regards to adolescent screen time, addiction in young people as well as the benefits of technology on French society. By the end of this topic you will be able to refer to current reports and evaluations on technology in the French speaking world, with statistics to support your argument.

TUDOR HABITS: As we discuss the dangers of digital technology, you will have to show maturity when reflecting on your own habits as well as show empathy when we discuss the digital divide between economically advanced francophone countries and those that are disadvantaged.

VOCABULARY:

la cyber-citoyenneté, la publicité ciblée, le chantage, s'abonner, pirater
