Die Wiedervereinigung und ihre Folgen (The reunification of Germany and its consequences)

Year 13 Spring 2

This unit of work will allow to investigate the socio-historic context of the film you studied in Year 12 (*Good-bye Lenin!*) in greater depth. This topic therefore serves as an excellent platform not only for revision of this wider context, but also as an opportunity to strengthen your knowledge and understanding of a key piece of German history. The reunification is part of the lived experience of many Germans, and the consequences that followed the fall of the wall have had an impact on subsequent generations as well. Therefore it is essential to understand this aspect of history in order to develop a more profound cultural understanding of contemporary German society. This topic also affords you the opportunity to practise and refine more complex areas of grammar, such as cases and conditional sentences.

Cultural opportunities: it is essential to understand this aspect of history in order to develop a more profound cultural understanding of contemporary German society.

TUDOR HABITS: BE ANALYTICAL: You will need to think critically and analytically in order to develop an understanding of this topic. This will be especially important when examining the desired consequences and contrasting them with the actual outcomes of
