

LEARNING JOURNEY

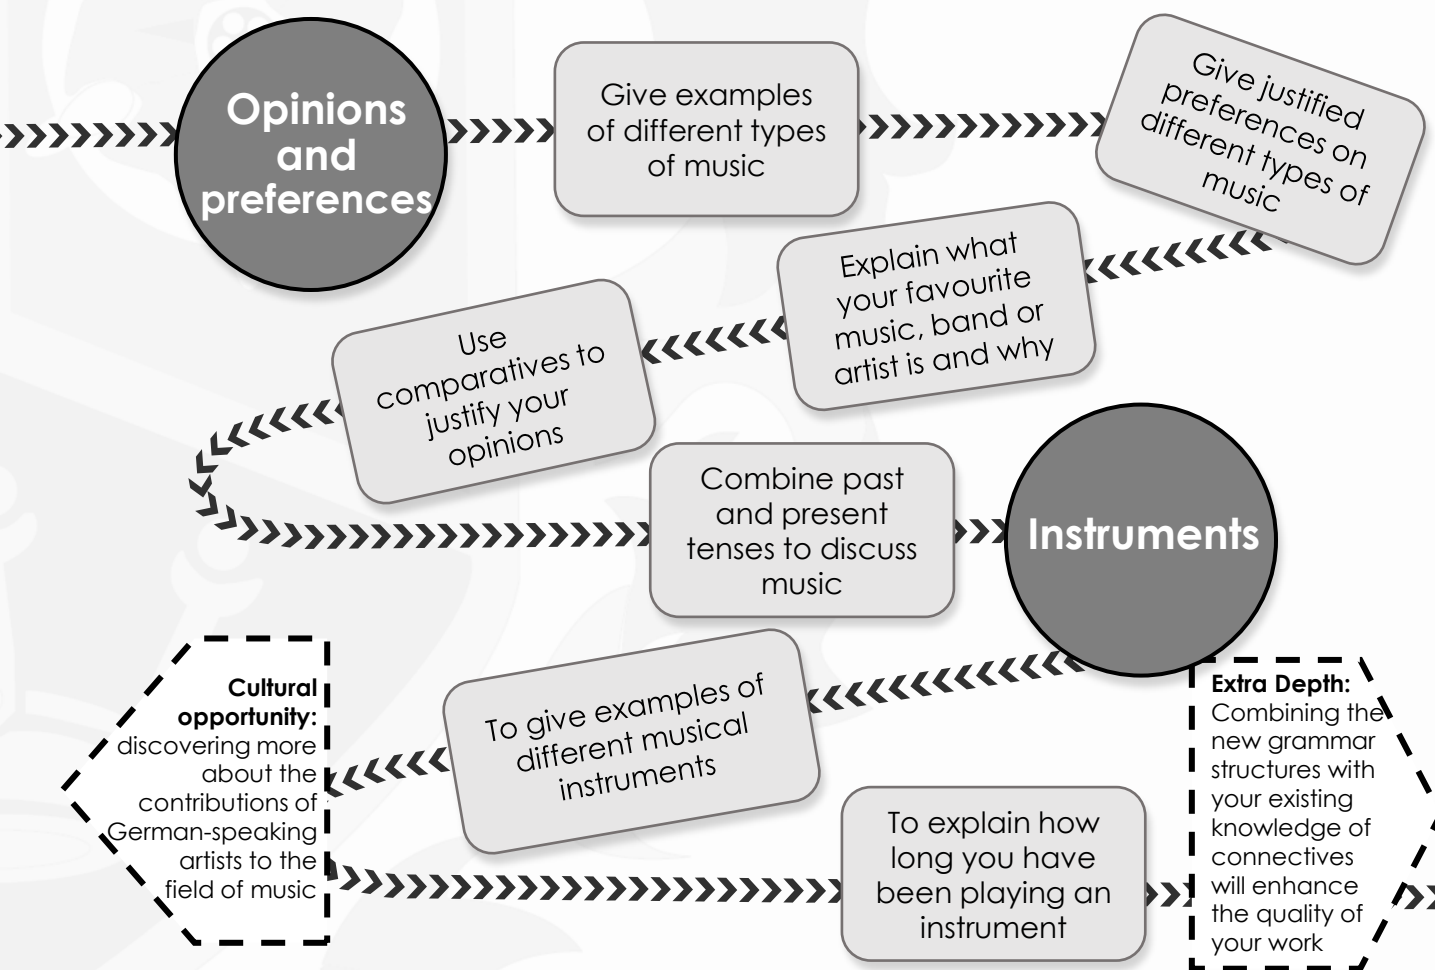

DEUTSCH

Year 8: Musik (music)

Summer Term

This half term you will further develop your understanding of **giving and justifying preferences** covered in the previous topic, through the new context of music. You will give your **opinions on different types of music** and develop your **range of grammatical structures to be able to compare** music genres. Additionally, we will further consolidate your understanding of the **past tense** covered in the spring term and practise combining this with the present tense in descriptions. We will also consider the contributions that German-speaking musicians have made to society and **discover more about the music of the German-speaking world**.

TUDOR HABITS:

This unit of work requires you to **be reflective** as we apply our prior learning on preferences from the media topic to this new context. You will also need to **be resilient** as we explore new and more complex structures (such as comparatives) to justify your opinions.

TIER 1 GERMAN VOCABULARY:

hören (to listen), klassische Musik (classical music), das Klavier (the piano), seit

TIER 3 GRAMMATICAL TERMINOLOGY:

comparative
