

LEARNING JOURNEY SPANISH

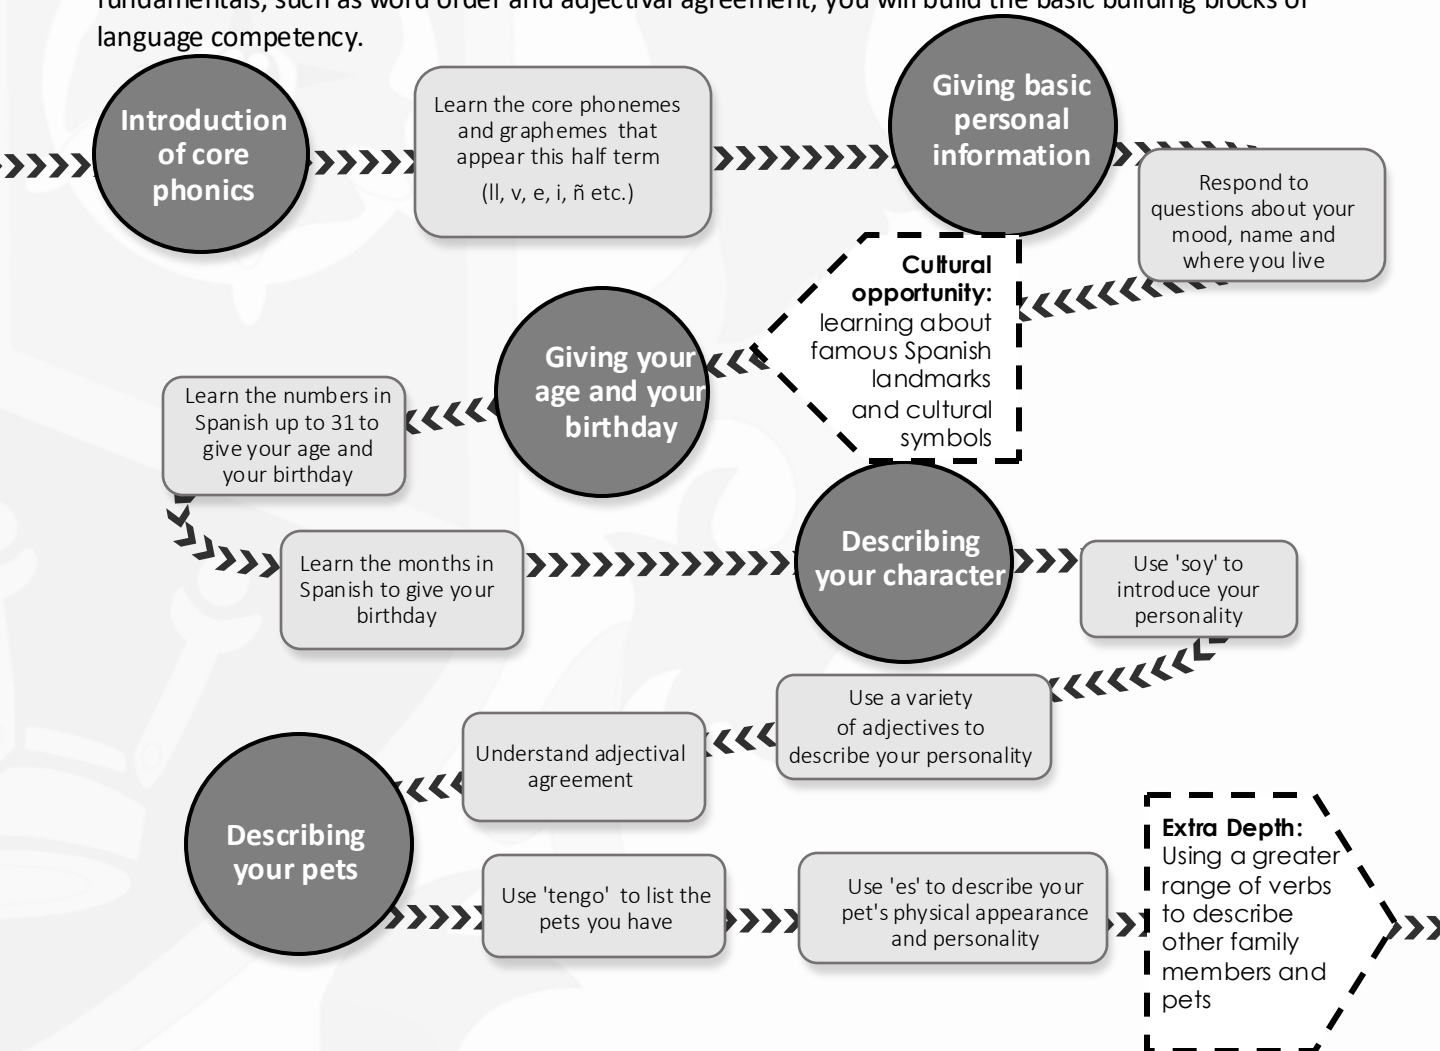

Mi mundo (my world)

Year 7 Autumn Term 1

During this half term, you will learn the fundamentals of how to pronounce key phonemes and graphemes that are pronounced differently in Spanish: 'v / ll / j / i / e'. By drilling these phonemes, you will be able to make the link between receptive skills (listening) and productive skills (speaking). You will see core content such as: introducing yourself by giving basic information (age, where you live and your birthday), describing yourself and your pets. You will also be introduced to key grammar fundamentals such as word order (noun then adjective) and adjectival agreement (making adjectives agree with the subject or the noun). By drilling phonics, core verbs such as: 'soy', 'vivo' and 'tengo', and grammar fundamentals, such as word order and adjectival agreement, you will build the basic building blocks of language competency.

TUDOR HABITS: Be confident in your pronunciation of new sounds that don't all appear in English.

VOCABULARY:

Tier 1 Academic vocabulary

Soy (I am) vivo (I live); tengo (I have),

Tier 2 academic vocabulary

Noun = a thing, adjective = a describing word
